

# Abdelrahman KHADRA

Web Developer

## PROFILE

I'm Abdelrahman Khadra. I found my passion for web development in Ruby on Rails, and designing and programming mobile applications. I have skills in front-end development, graphic design, video design, and animation. I enjoy creating websites for personal contacts and continuously work on projects to keep abreast of the latest technologies in the field. My aspiration is to become a professional web developer.

## EXPERIENCE

### Web Developer

Jun 2016 - Aug 2016

#### MINISTRY OF FINANCE

- Part of a project team that analyzed and programmed a new site that helps employees to perform their tasks within the Industrial Cities Authority using programmed mechanisms to facilitate the handling, speed, and accuracy in the completion of transactions for their investors.
- Designed the front end using HTML, and CSS.
- Analyzed the PIEFZA databases and uploaded them to the server.
- Assisted PHP programmers in solving back-end issues such as pulling investor information based off individual identification numbers.

## EDUCATION

### Certificate, Web Development

CareerFoundry

Oct 2017 - Feb 2018

- 500+ hours of training with industry-leading mentors during a course designed by experts from companies like Apple and Cisco.
